

Resource Center

The Resource Center is an online collection of support materials and reference documentation to facilitate the implementation of the training program.

The **Resource Center** is an online collection of support materials and reference documentation available to the Administrators and Learning Leaders responsible for the online training program at their organization. These resources seek to facilitate the development of custom materials to fit the needs of each store and company using the online training program.

- **Administrator's How-to** – this section offers quick links to courses, videos and materials that will help the Administrator to manage their online training program.
- **Marketing Materials** – download flyers that you can use to promote the online training program and its features in your store.
- **Quarterly Newsletter** – the newsletter is your best resource to keep up-to-date with the program, courses, upgrades and new features. Also, see who is joining the program, outstanding users, best practices, etc.
- **Articles** – review the articles in the industry press dedicated to the Institute's online training program.
