Self Assessment

The self-assessment is an online questionnaire with 20 questions and sample pictures, that can be completed during a 15-to-30-minute walk through the store, by answering questions related to 20 essential sustainability key performance indicators/KPI's.

Assessment

Certification

Certification will help your store achieve operational excellence and meet sustainability goals by benchmarking performance, reducing costs, and increasing margins.

- Earn Recognition:** Demonstrate sustainability leadership and earn differentiation in the market.
- Cut Costs:** Gain visibility at each store and address opportunities to reduce cost and increase margins
- Mitigate Risk:** Consistent performance tracking across stores, allowing transparency and risk mitigation.
- Systematize Sustainability:** Systematize sustainability management across the portfolio.
- Demonstrate Performance:** Benchmark ESG performance along a clear path for improvement

Complies with requirements to prevent pollution, provides safe working environment, ensures safe food products, and invests in basic efficiency measures.

Has a public sustainability commitment, prioritizes community engagement and employee satisfaction, and prioritizes investments in efficiency improvement and impact reduction measures.

Has clear sustainability goals and commitments to drastically reduce or eliminate the biggest environmental and social impacts of its operations.

Has integrated sustainability as an operational principal, and has invested in promoting the circular economy, net zero carbon, diversity, equity & inclusion, and sustainable and ethical supply chains in its operations.

Online Training

Stores participating in the online training programs from RLI, NGA, IGA have access to a sustainability curriculum designed to train their staff educating them on how to support and maintain the stores sustainability initiatives.

Stores that do not subscribe to the online training are encouraged to participate in a demo and obtain test accounts. A variety of packages that fit the needs of each store are available.
