

Mobile Learning

Skip the dedicated classroom and equipment. With our Go.Learn app, your associates will be able to learn anytime-anywhere, right from their mobile devices. Associates expect a training program that is flexible and on-demand. They want ability to learn when and where they need it, whether it is because they need instruction to handle a new situation or because they have unplanned time to dedicate to their development.

Use the **Go.Learn** app to access to all the Institute's courses from your mobile phone!

Follow these directions to download and use the new mobile app:

Download the Go.Learn app from the [Apple](#) or [Google Play](#)
Open the Go.Learn app and type these URL: <https://igaecs.docebosaas.com/>
Log in using your username and password.

Tip – you can save your login within the app to access it without login in the future.
Keep in mind that mobile learning is most effective in shorter sessions.

Mobile App FAQs:

- What are the supported operating systems for Go.Learn?
Go.Learn will run on devices using iOS 9 or higher or Android 6.0 and higher.
- Will Go.Learn work on tablets?
Yes, Go.Learn works on tablets that run on the supported mobile operating systems.
- Will my learning content transfer automatically to Go.Learn?
All online content is synced with the Institute's Learning Management System (LMS) servers, so you will not lose anything.
